Report of Board of Directors, Committees, and Items of New Business

to be presented to
STATE COUNCIL OF EDUCATION
JANUARY 15-16, 2022
Burlingame, CA (Virtual)
OUR MISSION

The California Teachers Association exists to protect and promote the well-being of its members; to improve the conditions of teaching and learning; to advance the cause of free, universal, and quality public education for all students; to ensure that the human dignity and civil rights of all children and youth and adults are protected; and to secure a more just, equitable, and democratic society.
To fulfill its mission, the California Teachers Association pursues the following goals:

I. CTA plans and executes programs and strategies designed to enhance the quality of education for students and the professional and personal lives of its members.

II. CTA assists its local chapters in bargaining for salaries and individual and employment rights in keeping with the academic and professional status of its members.

III. CTA represents members in governmental relations -- to influence state and federal legislation and actions by state and federal agencies.

IV. CTA strengthens its role as the preeminent voice for public education in California -- projects a strong, coherent and consistent image -- such that its members play the major role in shaping public policy on education.

V. CTA represents members in professional and career development matters.

VI. CTA represents members and provides a program of economic benefits and resources for members.

VII. CTA works to maintain and expand its membership so as to remain effective in defending and advancing its members' interests.

VIII. CTA maintains a governance system designed to achieve broad membership involvement and democratic decision-making.

IX. CTA works to encourage ethnic minority member participation.

X. CTA works to promote human and civil rights.

XI. CTA maintains staff, hired in conformance with affirmative action principles, to serve its members.

XII. CTA maintains internal and external communication systems to ascertain its members' priorities, to keep its members informed, and to improve its relations with the public.

XIII. CTA implements NEA policies within California and works to influence the development and content of those policies.

A. NBI #: 1/22-5

Action Requested: The Board of Directors should develop recommendation procedures for county supervisors and countywide public offices, akin to those in existence for county superintendents and county boards of education (CTA Organizational Handbook, pg. 442). The procedures should be completed and disseminated in time to implement before the June 2022 primary election.

INFORMATIONAL ITEMS

1. Chair, Ingrid Gunnell welcomed the committee with an ice breaker and presented a PIC chair report.
2. Board Liaison, Mike Patterson urged members to contact their Assemblymembers and Senators to demand reinstatement of COVID-19 supplemental paid sick leave for educators and California workers.

3. CTA/ABC Chair, Wendy Eccles presented a CTA/ABC report to the Committee.

4. Associate Executive Director of GR, Teri Holoman discussed highlights of Governor Newsom's proposed 2022-23 state budget.

5. Political Manager, Michael Borges discussed the 2022 ballot measure landscape and California's redistricting results.

6. Nominations are open for the 2021 Chapter and Member-in-Politics Awards. The deadline to apply is February 4, 2022. For consideration, please visit: https://www.cta.org/for-educators/scholarships-awards

A. Academic Freedom

Academic Freedom (Page 205)

CTA believes academic freedom is fundamental and essential to the teaching profession:

1. Educators must be free to think and to express ideas, free to select and employ materials and methods of instruction, free from undue pressures of authority, and free to act within their professional groups, including appropriate methods of student evaluation. Such freedom should be used judiciously and prudently so that it promotes learning, pupils' exercise of free thought and critical thinking.

2. Academic freedom is essential to high-quality education and carries with it professional responsibilities. Educators have the freedom within the law, while observing the basic ethical responsibilities of the teaching profession, to exercise their rights as citizens and responsibilities as teachers. Those responsibilities include:
   a. Understanding of our democratic tradition and its methods.
   b. Concern for the welfare, growth, maturity and development of all students.
   c. Application of sound professional judgment in selecting and employing materials and methods of instruction.
   d. Defense of the profession and its members from any abridgment of academic freedom.

3. Classroom teachers and other educators must have the responsibility for developing curriculum and selecting instructional materials and methods to meet the goals of that curriculum. They shall be involved in all aspects of adoption and implementation of curricula and materials. The adoption and implementation processes must recognize that individual teachers have different teaching styles and bring unique attributes to their classrooms. Curricula that limit the ability of educators to incorporate teachers' own styles, attributes, and materials infringe upon academic freedom. The professional judgment of classroom teachers
and other educators to determine appropriate and aligned curricula is key to student achievement and growth. Local associations and governing boards must adopt/negotiate procedures to be followed when there are criticisms/objections to methods or materials. The content of instruction must be judged and controlled by skilled professionals without undue interference by any individual or group. Any individual or group which seeks to inhibit academic freedom must not have influence over the hiring, firing, promotion or due process rights of bargaining unit members.

4. Recognizing that our knowledge regarding many academic subjects will continue to evolve, educators must have the academic freedom to teach topics that reflect the emerging body of academic and/or scientific knowledge and understanding in their respective curricula and select instructional materials as well as methods to meet those educational goals.

5. Part-time and temporary bargaining unit members are particularly vulnerable concerning issues of academic freedom. The same policies and protections applied to full-time bargaining unit members must apply to part-time and temporary bargaining unit members.

6. Bargaining unit members must be free to evaluate, criticize, and/or advocate personal points of view concerning policies and/or programs of the schools. Bargaining unit members must be free to assist their colleagues when their academic or professional freedoms are violated.

7. Bargaining unit members must be employed, promoted, or retained without discrimination or harassment regarding their personal opinions or their scholarly, literary or artistic endeavors.

*This proposed language helps to create more parameters for academic freedom to cover issues that may revolve around items that are considered controversial topics in current events. The Committee wants to strengthen policy language so that academic freedom is protected as topics evolve and more academic/scientific knowledge is updated.*

*Added a new number four to our academic freedom language. That changes current number 4, 5, 6, to a 5-7.*

INFORMATIONAL ITEMS

1. Paula Merrigan, ECE Committee Chairperson, welcomed the CTA Board Liaison and Committee members. She explained how the meeting would work and gave the following reports:

   a. November Early Childhood Policy Council meeting: panel of experts discussion on infants & toddlers and how important early development is to outcomes later in life, the importance of families engaging in math activities at home (counting, math vocab, etc.). Our next meeting is in 2 weeks. I have been asked by the Chair to report out as a "voice in the field".

   H - 1
b. CDE's Local Implementation & Promising Practices Constellation meetings continued to be held weekly through Dec. and have just switched to bi-weekly meetings. We continue to work on the implementation practices for LEAs to follow in implementing UPK/UTK under AB130. A document was sent to LEAs by the CDE to help them create a Universal Pre-K/Universal TK plan. They can work with their County Offices of Ed., or complete the plan on their own (the form is optional).
   i. Just a reminder, the age eligibility date ranges are as follows: 22/23: turning 5 from Sept. 2 - Feb. 2; 23/24: turning 5 from Sept. 2 - Apr. 2; 24/25: turning 5 from Sept. 2 - Jun. 2; and 25/26 & beyond: 4th birthday by Sept. 1
   ii. The length of the TK day is under local control. Minimum instructional minutes are 180 (which is within existing CTA policy). LEAs can continue to offer Early TK (ETK), but students are not eligible for ADA until they turn 5 if they are admitted out of the age eligibility range.

c. CTA Chair Meeting: the voucher programs are still of concern to CTA, but supporters are currently having trouble qualifying for the ballot.

d. Discussed creating CTA policy addressing the age for kindergarten & TK eligibility during our March meeting? Kindergarten age eligibility is 5 by Sept. 2nd., which means we will continue to have 4 year-olds in kindergarten instead of TK as TK expands (and older 3 year-olds in TK in 4 years 25/26).

2. Toni Trigueiro, Legislative Advocate: Brought to the attention of the committee the following:

3. CTA Board Liaison, Denise Bradford:
   a. CTA Support for Local Decisions re: Omicron. With Omicron-related virus transmission and related staffing shortages, CTA is doing the following:
      i. Supporting local decisions when considering whether to suspend in-person school activities during this Omicron wave
         1. This includes the availability to school districts of J-13A waivers for attendance and instructional time credit, as outlined on pages 2-4 of the following previously-issued CTA bargaining advisory. Consult with your primary contact staff. Advisory: https://www.cta.org/wp-content/uploads/2022/01/2021-07-22-C4OB-IPD-ADVISORY-BARGAINING-CHANGES-TO-INDEPENDENT-STUDY-FOR-2021-22-AND-BEYOND.pdf
ii. Immediately suspending all previously scheduled CTA in-person statewide conferences through at least February 15. Some of these conferences may be converted to a virtual format or postponed.

iii. Calling on the state government to:
   1. Prioritize distribution of high quality masks to school districts
   2. Increase Covid-19 testing capacity in school districts
   3. Restore the Supplemental Paid Sick Leave program for workers.

b. Executive Order on Substitute Teachers. Due to the Omicron wave, Governor Gavin Newsom issued an order granting temporary flexibilities for substitute teachers and substitute credentialing. A. School Closures - p. 296 (after School Bus Safety)

CTA believes schools may need to be temporarily closed under certain circumstances for the health and welfare of students and employees. These may include, but are not limited to such things as wildfires, natural disasters, public safety power shutoffs, public health crises, civil unrest, or other serious situations in the community, which may put students and employees at risk.

CTA believes that the decision to close school buildings should be made after considering many factors. Whenever possible, all stakeholders need to be involved in the decision to physically shut down schools and shift the mode of instruction.

CTA believes that if a school site is not safe, then students and employees should be evacuated. CTA acknowledges that it is not always possible for teachers to deliver instruction during a school closure. Under certain circumstances, schools may need to shut down temporarily and instruction suspended or modified.

In light of recent school closures there is a need to address emergency responses for the safety of students and employees in unforeseen circumstances.

REFERRALS TO THE BOARD OF DIRECTORS
INFORMATIONAL ITEMS

1. Chairperson Eric Roudabush introduced the discussion for the joint Trauma Informed Teaching and Learning Workgroup and facilitated the committee members providing input into the draft campaign plan.

2. Board Liaison Robert Ellis welcomed the committee and reported on the decision to move State Council and conferences virtually through February 15, 2022. Additionally, Robert explained that EMEID participants for the 2021-2022 school year will be welcomed to the March 2022 State Council meeting due to the January meeting being switched to a virtual meeting. An election was held for Recorder. After the meeting concluded, the member elected discovered she was ineligible to run. The committee will seek nominations and conduct an election at our next meeting.

3. The committee heard a presentation from C4OB staff Laura Kurre regarding the current status of the COVID-19 pandemic and the health and safety impacts California schools and members are experiencing. The report indicates the importance of high quality masks (N95, KN95, and KF94), ventilation, and testing in order to keep all educators and students safe in schools. Children also need access to appropriately sized high quality masks, and efforts continue to make sure this is happening. CTA continues to engage with the State to increase access to high quality masks and testing. Laura provided updates on isolation guidance and quarantine guidelines. Cal-OSHA Emergency Temporary Standards are now extended through April 2022. Exclusion Pay under the Cal-OSHA Emergency Temporary Standards remain largely unchanged.

   a. The report included several links to current public health guidelines:

vi. CDPH: Group-Tracing Approach to Students Exposed to COVID-19 in a K-12 Setting (new 1/12/22)

4. Legislative Advocate Toni Trigueiro provided an update on numerous bills and recent state laws regarding school safety. Toni explained that efforts are underway regarding AB 610 and SB 387. AB 610 is a bill that would limit notification requirements to law enforcement connected to safety issues such as drugs and weapons. Additionally, SB 387 would require at least 75% of classified and certificated employees in a district to be trained in recognizing symptoms of youth behavioral health psychological disorders. SSM continues to monitor both bills.

A. Discipline: Parent Responsibility - p. 372

CTA believes when disruptive students are suspended for their behavior whenever student suspension cannot be avoided, the cooperation of parents and guardians is essential for the improvement of school behavior, repairing of school climate and culture, and reintegration into the school community. Schools should make every effort to accommodate families and caregivers' ability to participate in restorative conferences supporting reintegration and/or assisting in repairing have the authority to compel a parent or guardian to attend disciplinary and/or suspension conferences. Disruptive students should not be returned to the school unless and until a parent conference has been held. Parent or guardian liability should be extended to include willful misconduct which results in damage to the educational climate of the school. Such liability responsibility should require family and community partnerships cooperation with the school in the discipline development and education of minor children. (PRR: May 1981)

Avoiding zero-tolerance practices leading to suspension and expulsion is current CTA Positive Behavior Practices policy. This revised policy addresses inequities in parent or guardian's ability to attend related conferences, and emphasizes the parent or guardian’s relationship with the school as positive by more closely aligning with Community Relations Shared Support/Parental Involvement policy.

A. P. 367 Paragraph 4: Community Schools

Community Support Services - Community schools recognize that students often come to school with challenges that impact their ability to learn, explore, and develop in the classroom. Because learning does not happen in isolation, community schools provide meals, health care, mental health counseling, and other services before, during, and after school. Therefore, it is critical that the school remains staffed with an appropriate amount of counselors, school nurses, psychologists, social workers, teacher librarians, and any other relevant support staff. These wrap-around services are integrated into the fabric of the school. Connections to the community are critically important so support services and referrals are available for families and other community members.

It is imperative to take a proactive approach in supporting a community schools' model, which brings in all stakeholders of the community to make decisions about what is needed and the best approaches for addressing the needs of students, families, and schools within the community. As we have seen during the pandemic, students and families rely on schools for more than just classroom instruction. Schools must be places where students and their families can receive services to support their own physical and mental health in addition to receiving a quality public education.

B. Page 391 Paragraph 3: School-to-Prison-Pipeline and Incarceration Prevention

CTA supports a police-free campus. CTA opposes policies, and practices, and funding that support institutionalized racism, white privilege, white supremacy, poverty, disproportionality in
school suspensions and expulsions, physical violence against our students, and other factors leading to the criminalization and demoralization of students. In addition, CTA opposes police brutality against our students, excessive investment in the prison-industrial complex, institutional inequity in the distribution of resources, school environments that are becoming increasingly similar to prisons with tracking devices in student IDs, surveillance cameras, metal detectors, armed and militarized guards on campus, etc.

CTA believes that schools should be places where all students feel safe and supported and not targeted by the police. CTA denounces police brutality. CTA supports the investment in, **training of, and additional staff for community schools, restorative practices,** wrap-around services, such as counselors, support staff, social workers, and mental health supports. CTA further believes that all stakeholders should be actively involved in making data-driven decisions on what community supports are needed and how monies will be allocated to fund them.

*We believe that funds should be used to educate and support our students in ways such as (but not limited to) hiring additional staff and training all staff in de-escalation, restorative justice, and counseling services and not in ways that perpetuate systems that harm our students. All students, especially students in crisis or impacted by trauma, will greatly benefit from these supports. More exposure and education on the impact of criminalization of students and the ability of community schools to meet the needs of students facing trauma in schools is required.*

CRE moves to approve **NBI #10/21-10** for immediate action:

**NBI #: 10/21-10**

CTA will develop a video or share a video on the impact of mocking Native American culture and its harm on native educators, students and their community.

**Rationale:** CTA has a deep commitment to Social Justice. After the incident of mockery of Native American culture at a Riverside High School, it is more important than ever that CTA's advocacy for positive images of Native American educators and students be visible.

CRE moves to approve **NBI #10/21-11** for immediate action:

**NBI #: 10/21-11**

CTA will develop training to address the negative impact on Native American/Alaska Native representation to be shown at all Service centers, and available for all local representative councils.

**Rationale:** All CTA members should have access to culturally appropriate ways to represent Native American/Alaska Native cultures within our education system. How members present Native American curriculum in our schools matters.

MATTERS PENDING

NBI #: 10/21-4

Within a year from NBI passage, The CTA shall develop and distribute a presentation on Climate Justice, detailing how the climate crisis financially and functionally affects our public education system with emphasis on the disproportionate impact to Black Indigenous People of Color (BIPOC) communities and proposals to address the issues.

Rationale: The ongoing and quickly intensifying impact of the climate crisis on our public education system and, more importantly, on our BIPOC students and communities, is largely absent from education discourse. The CTA needs to use its resources to raise awareness of the depth and urgency of the climate crisis, educating members on how it directly harms students and public education while developing and advocating for solutions. Students' mental, physical, and cognitive health, privatization and union-busting threats, environmental racism, and insufficient infrastructure are some of the Climate Justice issues directly related to public education that CTA needs to bring to light.

1. Chairperson Randa Wahbe started with the approval of the agenda and minutes from October 2021 then welcomed the newest CTA Communications staff Lisa Gardiner, Statewide Media Coordinator; Elizabeth Barcelos, Social Media Coordinator; and Kathleen Haley, Website Coordinator.

2. Board Liaison Taunya Jaco thanked staff and members for their dedication and willingness to pivot at the last minute to a virtual State Council and shared a few resources and reminders in her report. First, remember to look for a paper ballot to vote in the NEA Board of Director race, and on Sunday there will be an electronic vote in a special CTA election for CTA Board of Directors, District P. Second, there is a comprehensive statewide organizing plan that was constructed based on input from local leaders across the state on how to best keep CTA relevant and strong as we move forward. Be on the lookout for organizing grants. Third, February is Black History month, and there are countless ways that you may choose to celebrate, not just in February, but all year long. Fourth and most importantly, Taunya encouraged committee members to take action by calling lawmakers to restore supplemental COVID-19 paid sick leave in order to allow teachers and school employees to isolate, recover and return safely to their students and classrooms.

3. Manager Jonathan Goldman brought awareness to the California Reads Program. With Read Across America a little over a month away consider reading one of CTA teacher recommended books from this year's California Reads list. Links to resources and our independent bookstore partner can be found here.

4. The committee discussed the rise of targeted educator attacks in the media and the subsequent bullying that takes place on social media. As you connect and share more online, knowing how to manage your privacy and protect your information is more important than ever. A resource was created for tips and tools on how to help control who can see what you share and how to take charge of your privacy while on social media.

5. Assistant Manager Claudia Briggs discussed recent media coverage about all the challenges educators are facing amid the current Omicron outbreak. Committee members were encouraged to share their own experiences with staff for coverage in the California Educator and promotion to the news media. Ideas should be sent to: kfong@cta.org or lgardiner@cta.org.

6. Communications issued a media statement and partnered with the Human Rights Department to send an all-member email about CTA’s policy-driven position on teaching the truth. The release was sent Jan. 6, 2022, and is available here. The email is printed on the next page.

7. Committee members were encouraged to make nominations in the John Swett Award, the 63rd annual awards competition to recognize reporters and media outlets that are telling the important stories about public education. Applications are available at https://cta.org/johnswettawards. The deadline is April 8, 2022.

Page 242, fourth paragraph: "Benefit improvements shall be applied on an equitable basis to all members and beneficiaries of CalSTRS/CalPERS. Ad hoc benefit increases, which favor one group of members to the disadvantage of another group of members, should be resisted. This does not preclude adoption of greater increases in order to bring parity to groups that retired under a lower benefit amount in their respective retirement systems."

The committee seeks to update this policy due to retirement law changes over the years that have created varying levels of benefits. This updated policy will allow CTA to advocate for parity by considering that not all retirees retired under the same level of benefits

INFORMATIONAL ITEMS
1. Kevin Welch, Retirement Committee Chair, shared with the committee the policy governing CTA's position on retirement issues. He reminded the committee that this council will include major policy for second reading that will be debated, and potentially adopted at this meeting. The committee will also take up two important pieces of sponsored legislation regarding CalSTRS overpayment due to employer or CalSTRS and the CalSTRS's Option 1 proposal regarding the Supplemental Benefits Maintenance Account (SBMA).

2. Rose Luna, Committee Consultant, shared with the committee an example of how a CalSTRS audit can result in an adjusted benefit that requires a retirees benefit to be reduced and for the member to reimburse CalSTRS for overpayments. The committee is pursuing sponsored legislation to address this growing problem.

3. Seth Bramble, Retirement Committee Legislative advocate, shared with the committee bills that have been introduced into the State Legislature impacting retirement. He then provided the committee with important information regarding the committee's two pieces of sponsored legislation regarding CalSTRS overpayments and the SBMA. The committee approved sponsored legislation regarding Concept Beliefs regarding overpayments from CalSTRS. The committee approved for second reading a policy change regarding current policy to allow for enhancements to CalSTRS benefits for those who retired under lower benefit amounts. The committee approved moving forward sponsored legislation regarding CalSTRS, SBMA, Option 1. For update information on legislation please visit http://leginfo.legislature.ca.gov/.

4. Joe Bartell, CTA Board Liaison, shared the State Budget has been released by the Governor, and the initial funding amounts for public education are of historic levels once again. This is the beginning of a process, so things can change between now and the final adoption in June, but this is a great place to start. A recent executive order by the Governor gives much needed flexibility to local districts in filling the gaps in staffing created by the most recent surge of COVID. The new order allows long-term and daily subs to be in classrooms for 120 days; allows student teachers to sub without direct supervision as long as they hold a substitute credential; and allows districts the flexibility to grant substitute credentials and bypass the CCTC waiting period. Additional orders have also made it possible for retired educators to come back to sub without the CalSTRS prohibition/waiting period. The CTA Board, at their last meeting, made the decision to move all conferences until February 15th virtual due to the current COVID surge. Conferences after that date will remain in-person unless subsequent action is taken based upon the ever-changing dynamics with the pandemic. Lastly, CTA signed on to a joint labor letter requesting the Governor re-establish paid time off for educators forced to quarantine or isolate due to close contacts and infection from COVID. We are asking all members to contact their elected Legislators to request this be done expeditiously.

5. Ed Foglia, NEA Board Liaison, shared information with the committee on the following topics: Build Back Better Act, Voting Rights, Workers' Rights, and Social Security & GPO/WEP, inclusion. He also shared that NEA is attempting to restart COVID in-person meetings with both NEA RA and Conferences.

6. Mitch Olson and Rose Luna, CTA Staff Consultants, reviewed the Governor's Executive Order as it pertains to CalSTRS with the committee. The order did two things to allow CalSTRS retirees to return to service: (1) it removed the earnings limit to allow retirees to return without being impacted in their retirement benefit from the period of July 1, 2021
to March 31, 2022 (CalSTRS earnings from April 1, 2022 to June 31, 2022 are still subject to an earning limit of $48,428 for 2021-22); and (2) it allows for CalSTRS retirees to return to service before the 180 day wait out period. For further information, please contact your local leadership/CTA staff person. CalSTRS Employer Directive - https://www.calstrs.com/sites/main/files/file-attachments/directive2022-01.pdf?1642184561

The staff also reported that they have been offering virtual retirement trainings throughout the year through service centers where they share directly with members a broad overview of the CalSTRS retirement system.

7. MaryKay Scheid, CalSTRS Liaison, shared that at the CalSTRS Board meeting, CalSTRS staff reported in their Investment Report that CalSTRS has $320 billion in the fund as of 10/31/21 with stable asset allocation. 76% of assets are in the US based on real estate, etc., but those only account for 43% of revenue. China is 4th largest country in portfolio (only 2%), but generates 10% of revenues. Europe is less important these days. Inflation is an uncertainty. Employment also is an uncertainty. Investment costs increased this year for the first time in 6 years, but we had double digit returns. CalSTRS is now scheduled to hit full funding 2041 (5 years ahead of schedule) and in a much better position today than last year. As far as investments, there continues to be requests to divest from Embridge and from fossil fuels. CalSTRS stated that they are not heavily weighted in fossil fuels. CalSTRS stated that any divestment that takes away from Global Equity will likely reduce the ability to achieve full funding and require modifications to the current funding plan. As CalSTRS increases investment complexity, they have to make sure there are resources and expertise.

8. John Anderson, CalPERS Liaison, reported that CalPERS continues to engage with groups interested in public pension divesting from fossil fuels. CalPERS support the divesting prudently as they continue to engage as a large investor with the companies that they currently have holdings in to encourage diversification and corporate responsibility. CalPERS has created an internal group to consider diversity and equity in its internal workings as well as with investments. They will develop an action plan. CalPERS is hiring a new Chief Investment Officer within the next couple of months. The former CIO had to resign because of conflicts of interest. 38 percent of CalPERS members have jobs related to education.

9. Orval Garrison, CTA/NEA Retired Liaison, shared the Governor's Executive Order temporarily suspending the 180-day return-to-work prohibition is an ongoing concern for retirees given that members continue to retire at different times during a year. CTA/NEA-Retired continues to support CTA action leading to successful legislation implementing CalSTRS's SBMA, Option 1. CTA/NEA-Retired is on the frontline dealing with retirees facing overpayment payback to CalSTRS and supports CTA's efforts to initiate sponsored legislation to address this growing problem. CTA and CTA/NEA-Retired should press for legislation that holds districts responsible for repayment if it is a school district that was responsible for reporting errors.

MAJOR POLICY - Immediate Action (2/3 vote required)

A. Adoption of the 2022-2023 State Budget Principles

PreK-12 & Adult Education 2022-23 Budget Principles

CTA believes the state and federal government should provide sufficient funding for public education to ensure all schools can provide a high-quality education and serve the needs of all students. CTA further believes funding for public education is an absolute obligation.

PreK through 12 funding:

- CTA believes the state must provide funding that moves California to the top ten states in per-pupil funding.
- CTA believes Proposition 98 should be a floor and not a ceiling for education funding.
- CTA believes we must protect the integrity of Proposition 98. CTA opposes any encroachment from non-Proposition 98 programs into the Proposition 98 side of the budget. CTA opposes any action which would reduce the Proposition 98 funding level.
- CTA believes that Proposition 98 should be protected from reductions through the creation of new or existing tax credits and giveaways that do not provide clear economic benefits to California, including public education. CTA further believes that existing tax credits should be carefully reexamined and repealed where there has not been a benefit to the California economy and public education.
- CTA believes we must support and monitor the Proposition 98 guarantee certification process to ensure it has been properly implemented and to provide certainty in school funding going forward.
- CTA believes that the Local Control Funding Formula should be continuously appropriated to ensure the flow of education dollars to California's public schools without disruption.
- CTA believes that the Local Control Funding Formula base grant should be increased beyond COLA and should utilize benchmarks to increase the LCFF base grant over time.
- CTA continues to support supplemental and concentration grants to meet the unique needs of California students.
• CTA opposes any policy changes to the LCFF that would require the State Board of Education to modify regulations related to allowable LCFF expenditures. Additionally, CTA believes any policy changes should be vetted through the Legislative policy committees.
• CTA supports additional funding to the California State Teachers' Retirement System through additional non-Proposition 98 General Fund to reduce district's contributions. CTA supports maintaining the integrity and implementation of AB 1469 (Chapter 47, Statutes of 2014), which provided a long-term funding plan for CalSTRS.
• CTA supports increasing funding for special education. CTA believes providing adequate funding to special education to fully fund the cost of special education is needed to support increased student needs and costs. Existing state and federal mandates for special education should be funded fully before adding new program requirements or incentives.
• CTA supports maintaining the LCFF and providing, at a minimum, the statutory COLA for the LCFF.
• CTA supports, at a minimum, providing the statutory COLA on the remaining K-12 education categorical programs.
• CTA supports investing in educator retention and recruitment in order to address the state's educator shortage, especially in chronic shortage areas.
• CTA supports investing in professional development to address the needs of educators and staff.
• CTA believes schools should be protected from reductions in funding during emergencies, including wildfires, pandemics, and other natural disasters, in order to maintain services and support for students and staff. CTA believes any changes to attendance-based funding should be carefully considered and include a hold harmless for all local educational agencies.
• CTA believes Career and Technical Education funding should continue to be a priority and should be administered by the Department of Education.
• CTA supports community schools. However, funding for community schools for activities not customarily part of instruction should be paid for by non-Proposition 98 funding.
• CTA supports additional funding to support the needs of students, educators, and staff during the COVID-19 crisis, including technology, mental health, school nurses and counseling.
• One-time funding should be allocated equitably and made as flexible as possible to provide local educational agencies with discretion in addressing their unique needs.
• CTA supports expanding access to Transitional Kindergarten (TK), if implemented equitably and the appropriate resources are provided. CTA believes TK cannot be expanded within existing resources. CTA supports the "rebenching" of the Proposition 98 minimum guarantee to accommodate the expansion of TK.
• CTA believes school facilities should be funded with non-Proposition 98 funding.
• CTA supports extending COVID-19 Supplemental Paid Sick Leave benefits for all employees, including school staff.
• CTA supports additional funding to adequately fund school transportation.
• CTA supports maintaining the funding commitment to provide universal access to subsidized meals in schools.

Adult Education Funding:

• CTA supports the principle that all adult students should have access to fully funded adult education curriculum and programs.
• CTA supports at a minimum providing the statutory COLA for the Adult Education Program.

Community College Association 2022-23 Budget Principles

CTA believes in the goals established in the Master Plan for Higher Education that the state should provide adequate funds for community colleges to fulfill the goals of both student access and a quality education and should provide necessary resources to meet the needs of all students who attend community colleges. CTA further believes adequate funding for public higher education is a necessity.

Community College Funding:

• CTA believes that the state should provide adequate funding for community colleges to ensure access to a tuition-free community college education for all students.
• CTA believes that Proposition 98 should be a floor and not a ceiling for education funding.
• CTA believes that we must protect the integrity of Proposition 98 and that we must support and monitor the Proposition 98 guarantee certification process to ensure it is properly implemented.
• CTA opposes any encroachment from non-Proposition 98 programs into the Proposition 98 side of the budget. CTA opposes any action which would reduce the Proposition 98 funding level.
• CTA believes that Proposition 98 should be protected from the reductions that occur when tax credits and giveaways are created that do not provide clear economic benefits to California. Existing tax credits that harm Proposition 98 and thus reduce PreK-14 funding should be carefully reexamined and repealed where there has not been a benefit to the California economy and public education.
• CTA believes that PreK-12 school districts and local community colleges are best suited to provide vocational instruction to the workforce in their communities. Statewide community college districts such as Calbright should be carefully monitored and only supported if they clearly provide a cost-effective benefit to the unique needs of underemployed Californians.
• CTA supports additional funding to the California State Teachers' Retirement System through non-Proposition 98 General Fund allocations in order to reduce community colleges' contributions. CTA supports maintaining the integrity and implementation of AB 1469 (Chapter 47, Statutes of 2014), which provided a long-term funding plan for CalSTRS.
• CTA supports increased funding for part-time faculty support. Specifically, CTA supports additional funding to provide pay and benefit parity for part-time faculty, including office hours, professional development, health insurance, and other supports.
• CTA supports increasing the base allocation for community colleges.
• CTA opposes funding based on completion metrics of any sort.
• CTA supports providing additional resources to low-income students, including CalGrants and emergency student financial assistance.
• CTA supports investing in efforts to bolster enrollment and retention rates for community college students.
• CTA supports at a minimum providing the statutory COLA on apportionments and all categorical programs.
• CTA supports increased funding for enrollment growth.
• CTA supports increasing the number of and diversity of full-time faculty to meet and exceed the 75/25 percent full-time faculty provisions of AB 1725.
• CTA supports investing in professional development for faculty.
• CTA supports additional funding to support the success of students and faculty, including tutoring, technology, technology support, counseling, mental health, and other supports.
• CTA supports the allocation of additional Proposition 51 bond funds to support eligible construction projects at community colleges.
• CTA supports extending COVID-19 Supplemental Paid Sick Leave benefits for all employees, including community college faculty (full-time and part-time) and staff.

A. NBI 10/21-1, Moot.

"I move CTA sponsors legislation reinstating ADA funding for excused absences."

_Rationale: Funding was rebenched to adjust for the loss in ADA due to not counting excused absences when excused absences were removed from the calculation for funding. In addition, CTA's current efforts in advocating for funding increases and changes to the ADA component to the funding formula are for much greater funding adjustments than would be generated by funding excused absences._

B. NBI 10/21-8, Moot.
"I move CTA sponsors legislation to eliminate Average Daily Attendance as a mechanism for education funding."

**Rationale:** There is current legislation and ongoing budget discussions around altering the ADA component of school funding formulas and therefore it is unnecessary to sponsor legislation. This concept is being incorporated into the budget principles for 2022-23.

1. Marina Santos, AST chair, opened the meeting by welcoming returning and new members to the committee then led the group in a grounding activity to get things started. Marina also revisited the recent and past successes on state testing flexibility and the removal of SAT/ACT from UC and CSU admissions, eliminated Grade 2 CAASPP testing, and abolished the High School Exit exam, all championed by AST.

2. Robert Bassett, AST Vice-Chair, announced that AST has a new Legislative Advocate, Efrain Mercado. Patricia Rucker will be leaving AST to join Credentials and Professional Development (CPD). During Patricia Rucker's time with AST, there were many
accomplishments, such as eliminating Grade 2 testing and the high school exit exam, streamlining state testing, and restructuring the state accountability system. The committee thanks her for support and advocacy as the AST legislative advocate.

3. CTA Board of Director and Liaison, Greg Abt, provided some highlights from the State budget and other COVID-related topics.

4. AST legislative advocate, Efrain Mercado, provided an overview of the legislative process and how it relates to AST.

5. The committee received assessment updates from CTA staff consultant, Brian Guerrero, on:
   a. Spring 2021 state test scores have been released.
      i. Less than 25% of students statewide took the Summative CAASPP tests in spring 2021.
      ii. The results from those students who took the tests were largely as expected – “overall, scores dropped by 3-5 percentage points, with effects being more pronounced in Black and Latino students, low-income students, and students with disabilities. However, these same students also bore the brunt of COVID-related hardships – “racial and ethnic discrimination, sickness and deaths in the family, economic hardships, food and housing insecurity, lack of access to internet and technology, etc. – “so it is difficult to attribute their drop in scores on distance learning specifically (even though that is exactly what opponents of public education will do).
      iii. Historic differences in test scores between racial and ethnic groups and high and low-income students (the "achievement gap") predate the pandemic and are much larger than any changes during the pandemic, pointing to long-standing inequities as the root cause of lower-than-desired performance on state tests rather than distance vs. in-person teaching and learning.
   b. Use of Interim CAASPP tests
      i. Interim tests are meant to be formative assessments. They are tools for teachers and can be used in standardized or non-standardized ways (such as in groups or whole class), depending on the needs of students and the professional judgement of teachers. Interim Comprehensive Assessments (ICAs), the longest of the Interim assessments, are still based on the full test blueprint while the actual summative CAASPP test administered in spring 2022 will use the shortened blueprint; giving the ICA would take twice as long as the actual test and should be avoided. Interim assessments should not to be used for high stakes purposes (CA EdCode 60642.7(b)).
   c. Early Childhood Assessments
      i. Reviewed a recent research article from the Learning Policy Institute on characteristics of high-quality Kindergarten Entry Assessments.
   d. UC SAT/ACT Policy Article
      i. UC decided to stop considering SAT and ACT scores in admissions last year. UC has just decided not to create its own admissions exam. "UC
will continue to practice test-free admissions now and into the future."
(Provost Michael Brown)
e. Physical Fitness Test
   i. The State Board of Education approved modifying the Physical Fitness Test by removing BMI from the FITNESSGRAM because of concerns about its fairness to students with disabilities and those students who identify as gender-nonbinary, as well as negative impacts on students' body image.

6. Marina closed by sharing with the committee a proposed update to language in the CTA MTSS policy regarding assessment and how it is consistent with AST policy. There was discussion of some terms (such as "authentic" assessment) but no objections to the proposed language changes.

INFORMATIONAL ITEMS

1) SPS Legislative Advocate Toni Trigueiro started off the meeting with her Legislation Report, which contains many articles of interest regarding Student Support Personnel
a) The SPS committee supports the request by Assemblymember Patrick O'Donnell, chair of the Assembly Education Committee for CTA to co-sponsor a "DHCS Audit bill"
directed at the program inequities around the participation of LEAs in the federal LEA BOP program. Currently, some portion of 75% of submitted claims by LEAs are being disallowed; CA ranks 48th in the amount of eligible federal dollars not being drawn down; and the recently approved State Plan Amendment extends specific reimbursable health services to all eligible Med Cal students (previously only special education services were reimbursable).

2) CTA Board Member, Sergio Martinez, discussed the CTA Trauma Informed Teaching and Learning Workgroup. The group is discussing a possible presentation to State Council in Spring of 2022.

Sergio and Vice Chair Wil Page brought attention to the Virtual Town Hall Meeting regarding Community Schools scheduled for this coming Friday, January 19th at 4:00pm. It is important that local leaders request information on their district's eligibility for funding for Community Schools and how the money is being spent. Districts should be convening all stakeholders to have a voice in what services are needed for their community and not use the money as their own discretionary fund, especially, as the governor has proposed an additional $3 billion in his budget for Community Schools.

There is also a campaign to contact your state senator to demand additional paid sick leave, since the previous leave expired on Sept. 30th, 2021 and we are experiencing another surge in COVID-19 and need more time for quarantine or sick leave. Call your senator at 1-888-724-8903.

CSNO has set up an Advocacy page, where tools and resources can be used to advocate for funding more nurses [https://www.csno.org/advocacy-resources](https://www.csno.org/advocacy-resources). In a recent ACLU publication, California falls below the recommended ratios for school nursing. According to the ACLU, (p 14) "According to the federal data, the national average is 936 students to one nurse. c) Pupil Services Coalition/SEL - Josh Godinez

i) There is much conversation continued around the behavioral counselors. There is concern that these people are not required to be Pupil Personnel Services credentialed people coming on to the campus and questions around the qualifications, expertise, specializations, experience, roles, and responsibilities for these behavior counselors. The language blends in public relations pushes whereas they start by saying "clinicians" and then say "counselors." When stakeholders hear "counselors," they think "school counselors" and there is great concern about these people coming on to campus and not having a clear plan for effective delivery and long-term sustainability. This causes concern for the reputability of the school counseling profession. Also, there have been conversations about who can bill and who can't under Medi-cal. School counselors have been explicitly omitted under federal statute, but school counselors share that their job has changed over the last decade and what others can bill for—they now explicitly do. Conversations continue around knowing the incentive districts see in revenues from billing. The Office of Health at the California Department of Education is looking to fill positions soon with an administrator and 3 consultants (inclusive of a school nurse). ii) A major concern is Counselor Coaches. The Dept. of Health Care Services, (DHCS), the California Department of Education, (CDE), and the Governor are appearing to advocate for an AA degree program to augment the counseling workforce.

(1) Contractors selected (McKinsey & Cohave) have little familiarity with California's education system and school-based health and mental health.

(2) While we know it will take a few years to get this off the ground it is a huge insult to think a 2 year degree will qualify someone to address the mental health needs of our students as opposed to School Counselor, School Social Workers and School Psychologists. CASC is asking as we are sure CTA will as well

Sacramento, CA 95814

RE: The role of schools and the education sector is central to the success of the Children and Youth Behavioral Health Initiative

Dear Secretary Ghaly:

Thank you and the Newsom administration for your leadership in addressing behavioral and mental health challenges for California’s children and youth. We write, as representatives of local educational agencies and those working in classrooms and schools that provide mental and physical health services and social-emotional support to the state’s six million TK-12 students, to share recommendations and concerns as the administration proceeds with implementation of the Children and Youth Behavioral Health Initiative (Initiative).

The transformative potential of the Initiative to ensure California’s children have access and receive mental and behavioral health services will only be reached if the role of the TK-12 education system is recognized and incorporated into each and every element, from the ground up. While we appreciate this major undertaking is still in its infancy, we want to ensure that this crucial collaboration is institutionalized early on. Our coalition of organizations, representing educators, professional associations of pupil personnel services (PPS) and school nurse services credential holders, governing boards, county superintendents and school district leaders, has been meeting throughout the year to review, analyze and share feedback on the Initiative. We have met with Deputy Secretary Welch and with leadership and staff of DHCS and OSHPD/HCAI. Some of us also participate in the DHCS Workgroup on the Managed Care Plan Incentive Grants. We appreciate the ongoing dialogue. Now, as CHHS and Department leaders face critical decisions on the Initiative we want to share our

A. Special Education: Individualized Education Programs

CTA believes all educators retain the right to participate in the development of IEPs for students for whom they serve and be invited to participate in such IEP meetings. CTA supports a unified and consistent approach to IEPs. CTA supports student-centered IEP meetings that utilize measurable current data, are strength-based, and validate parent and student feedback.

CTA believes that all special education staff need protected time during the contracted school day for IEP testing, training, preparation, collaboration, and other IEP casework duties, in addition to the contractual mandatory preparation time provided to all certificated educators and Education Support Professionals.

RATIONALE: To support and address the recommendations from the California Statewide Individualized Education Program (IEP) Workgroup Report, which was authorized by the Budget Act of 2020, SB 74 and provided to the chairs of the relevant policy committees and budget subcommittees of the Legislature, the Executive Director of the State Board of Education, the Superintendent of Public Instruction, and the Director of Finance.

B. Multi-Tiered Systems of Support

Pgs. 279-280 Response to Instruction and Intervention/Multi-Tiered Systems of Support

CTA believes Response to Instruction and Intervention (RtIÂ²)/Multi-Tiered Systems of Support (MTSS) is a general education system-wide practice, using evidence-based methods and frequent data collection to respond to the academic and behavioral needs of students which enables them to meet high academic standards. CTA believes the effective implementation of Response to Instruction and Intervention/Multi-Tiered Systems of Support includes the following essential elements:
1. General educators use research/evidence-based curriculum and interventions to intervene, and continuously monitor progress of students' academic growth and positive behavior. As appropriate, instruction and interventions are adjusted accordingly to allow equal opportunities for all students to learn and may lead to referral to a Student Study Team. Progress is monitored as students respond or do not respond to interventions. As appropriate, interventions intensify-up to and including referral for assessment for Special Education services.

2. Students receive high-quality instruction in their general education classroom by appropriate qualified and trained personnel. Instruction is given in the core curriculum with the goal of achieving the state's grade level standards.

   A key component of high-quality instruction in the MTSS framework is the use of Universal Design for Learning (UDL). By utilizing principles of UDL, educators can proactively design classroom instruction and curriculum materials that provide meaningful and productive access to the core curriculum for every student, including students with IEPs, 504s, and English learners. CTA believes that all educators should be provided with ongoing professional development focused on the essential elements and implementation of UDL. Additionally, educators should be provided the tools and opportunity to develop innovative and effective teaching methodologies that are consistent with the principles of Universal Design for Learning.

3. General educators use formative and summative assessments that are aligned to the Common Core State Standards. Educators provide multiple and flexible means of assessment to allow all students various ways to demonstrate their understanding and knowledge.

4. Universal screening and progress monitoring are used to determine the effectiveness of student responses to provided interventions as well as to inform decisions on a continuum of services for students.

5. All school staff receive ongoing high-quality professional development focused on the essential elements and implementation of research-evidence-based best instructional practices, interventions, assessments, accommodations, behavior modification and data analysis. Site teams use a collaborative approach to monitor students and analyze data in order to develop and implement interventions and methodologies.

6. The involvement and active participation of parents and/or guardians at all stages of the instructional and interventional process is essential to improving the educational outcomes of their students.

7. Full funding for professional development, resources and personnel is required to implement this system-wide, prevention-based framework for improving learning outcomes for all students and should be included in a district's Local Control Accountability Plan (LCAP). (SEC: January 2009, June 2014)

C. Graduation Requirements (page 378)
CTA believes students should receive high school diplomas only when they have met minimum competency standards for graduation. Multiple options will be provided for students to demonstrate competency. There will only be one document (referred to as a diploma) that designates that students have satisfied all requirements to graduate from high school. Students should not be denied a diploma based on the results of any single state or district mandated test or measurement.

CTA believes every student is entitled to the opportunity to graduate from high school with a high school diploma. Mandated curriculum/graduation requirements must take into consideration the diverse needs of the learner; the IEP and 504 team recommendations; the differing abilities and resources of the schools and localities; the complex and ever-changing nature of our economy and society; and the difference between idealistic goals and practical realities.

Graduation requirements must be well-balanced and broadly based, including provisions for both general education (i.e., the common learning or core curriculum required of all students) and specialized education (i.e., career technical education and/or college preparatory education). Consistent with current federal law contained within the Individuals with Disabilities Education Act (IDEA), CTA believes every student with an IEP or a 504 should have an opportunity to earn a high school diploma that allows them to pursue any postsecondary college, training, or employment options, and meaningfully and fully participate in their community.

CTA believes teachers should have the central role in the development definition, and implementation of graduation requirements. CTA believes students who attend a non-traditional high school should be awarded a high school diploma or equivalent certificate based on the minimum California high school state standards.

CTA believes that when juveniles are under the authority of the juvenile court system and are required to attend school under California's compulsory education requirements, they should be taught by credentialed teachers. CTA believes that when students are transient due to such things as juvenile court, foster care, migration or homelessness, they should be able to earn credit for partially completed course work that was satisfactorily completed towards graduation requirements. (C&I: October 1977, January 1984, June 2001, June 2002, June 2016, June 2019)

**Rationale:** Consistent with current federal law contained within the Individuals with Disabilities Education Act (IDEA), every student with a disability should have an opportunity to earn a high school diploma which allows them to pursue any postsecondary college, training, or employment options, and meaningfully and fully participate in their community.

**MAJOR POLICY** - Second Reading

A. Quality Education: Special Education Programs, Foundations for Excellence: 397
CTA believes students with Individual Education Plans (IEPs) IEPs and 504s may benefit from instruction provided in general education and career and technical education.

Rationale: Participation and inclusion in Career Technical Education has not been consistent nor accessible for students with IEPs and 504s across the state. This policy update helps support conversations at the state level to include students with IEPs and 504s in this program.

B. Quality Education: Appropriate Inclusion: 348

CTA believes appropriate inclusion exists when students with disabilities IEPs and 504s attends age appropriate regular general education classes and career technical education in their home school, for the same number of instructional minutes as their peers, with appropriate support and funding.

Appropriate inclusion is one option in the full continuum of services and full range of delivery models available to students with disabilities IEPs and 504s as determined by the Individualized Educational Plan (IEP). Appropriate inclusion requires additional federal and state funding. This funding should be a prerequisite to the implementation of appropriate inclusion and will continue for as long as this option exists. Coordinated planning time for all educational employees involved is a requirement for successful appropriate inclusion. The impact of appropriate inclusion must be bargained. Regular General educators, CTE teachers, special educators and support personnel must be involved as full partners in the planning for and implementation of appropriate inclusion. Training must be provided for all educational employees involved in the implementation of appropriate inclusion. Modification in class size, scheduling, and curriculum design may be needed to accommodate the shifting demands appropriate inclusion creates.

Rationale: Participation and inclusion in Career Technical Education has not been consistent nor accessible for students with IEPs and 504s across the state. This policy update helps support conversations at the state level to include students with IEPs and 504s in this program.

C. Quality Education: Appropriate Placement: 349

Appropriate Placement: Special Education CTA believes students with disabilities (SWDs) IEPs and 504s shall be educated in the most appropriate placement, based on their Individualized Educational Program (IEP)IEP or 504 plan.

A continuum of services including special education and related services shall be available to meet the needs of SWDs students with IEPs and 504s, including general education classes, special education classes, non-public schools and charters, home instruction, instruction in hospitals and state special schools.

The impact of this continuum of services must be bargained, including class size and coordinated planning time for the employees involved. Professional development and trainings for employees involved shall be provided to address the needs of SWDs students with IEPs and 504s in the appropriate and least restrictive environment (LRE) including career and technical education courses.
Rationale: Participation and inclusion in Career Technical Education has not been consistent nor accessible for students with IEPs and 504s across the state. This policy update helps support conversations at the state level to include students with IEPs and 504s in this program.

D. Quality Education: Special Education Programs, Foundations for Excellence: 397

CTA believes students with Individual Education Plans (IEPs) may benefit from instruction provided in general education and career technical education. There must be a greater emphasis on collaboration between general education teachers and special education staff in order to improve and expand services to students.

Rationale: Participation and inclusion in Career Technical Education has not been consistent nor accessible for students with IEPs and 504s across the state. This policy update helps support conversations at the state level to include students with IEPs and 504s in this program.

INFORMATIONAL ITEMS

1. SEC Chair, Ismael Armendariz, thanked the committee for its flexibility, and particularly the Policy sub-committee for the many meetings and hours spent reviewing the multiple policies being considered by SEC for first readings.
2. Staff report: Karen Taylor reminded the group of the New Educator and Good Teaching conferences. Lisa Vieler briefly reviewed the Governor's Jan budget and mentioned the wealth of the session options at the Issues conference.
3. Board Liaison report: Angela Normand covered NEA and CTA elections; provided links to the CTA Org plan, NEA RA information, Governor's Jan budget, and COVID guidance/challenges/changes in CTA. This included GR's efforts re: COVID-19 leave.
4. Legislative Advocate: Annie Chou identified that February 18 marks the close of the period for new legislation and she expects that there will be legislation for the committee at the March State Council.
5. The Committee received the report, "Campaign Development: Disrupted Learning in CA Schools", broke into small groups, each focused on one major report category, e.g. Educator and Student Supports, and answered the 3 leading questions: What is the experience our students and educators are having? What do we need/what is most important to address? And, How do we get more people thinking and working on this? Our feedback was collected and will be shared with the original team who developed the report.

6. The Committee also received reports from these liaisons/ambassadors:

**California Middle Schools Alliance**, Troy Liggins: The California Schools to Watch Conference will be an in-person event on March 3-5, 2022 at the Monterey Marriott, Monterey, CA. Ten new schools to watch are nominated and accepted. This information can be found on the California League of Schools website.

**Communities of Practice on Secondary Transition** (COP), Stacy Williams: Bridge to the Future Institute will be March 7-9th, 2022. Continued discussions about IEP statewide template and alternative pathways to a high school diploma.

**Organization for Special Educators** (CARS+), Jessica Hilderbrand: CARSplus is the only association whose sole purpose is to represent the unique needs of Resource Specialists and other Special Education teachers. CARSplus is an important source of up to date information in a changing landscape of the field. This comes via the annual Convention (scheduled in person this year, Feb 25-26, 2022 [https://www.carsplus.org/2022-convention.html](https://www.carsplus.org/2022-convention.html)), and our quarterly magazine. CARSplus also offers information to members through their website with legislative updates and occasional email updates.

**Advisory Commission of Special Education (ACSE)**, Rebekah Acord: Governor's January preview of his budget suggests additional money for Special Education. This and the IEP template are still being discussed.

**California Association of School Psychologists**, Jose Malik. The Special Education Committee would like to thank our outgoing chair, Michael Flores-Castaneda for his timeless dedication to the profession.

In addition we would like to take the time to welcome and thank our Legislative Advocate - Annie Chou, as well as our staff consultants Karen Taylor and Lisa Vieler. The committee wants to thank PRR, C & I, and ACT for their collaboration on updating policy to support students with IEPs and 504s.
Sergio Martinez called the meeting of the Liaison Committee to order.

LIAISON/AMBASSADOR COMMITTEE OF THE WHOLE

The CTA Liaisons/Ambassadors met virtually for their January meeting. CTA Liaison’s assignment is to monitor, report, and respond to state policy discussions, as well as attend state agency meetings in person (when again appropriate). CTA Ambassadors are responsible for relationship-building between CTA and outside organizations in order to share CTA’s organizational priorities. This meeting included a State Budget update from CTA Legislative Advocate Katie Hardeman, a Sacramento Scene update from Manager of Legislative Relations Lori Easterling, a status update on Community Schools from Human Rights Manager Monica Thammarath, and State Board of Education Executive Director Brooks Allen gave an update on the goings-on of the State Board and took questions.

SUMMARY OF REPORTS

A few recommends for the State Board of Education on the CTE Plan from the past meetings:
- Incentives that create systems to support organizing learning across grades 11 through 14.
- Alignment with credentials and the labor market, using industry recognized certification as a guide.
- Governance to oversee and insure funding for an integrated 11 through 14 system with the State’s economic development priorities.
- Staff to rethink staffing structures to organize learning experiences
- Teacher Workforce (those who provide certifications in various careers) be added as an additional driver of the economy and recovery

CTE need to be introduced in the lower grades including elementary levels.

Research shows that ONE of the top priorities for Parents and students is finding a career passion in school.

We need to broaden Career Exploration in our schools.

NBI 1/22-1

All Regional Resource Centers shall be equipped with all of the appropriate audio, visual, digital, and virtual hardware and software, and the internet access and Wi-Fi that are necessary to provide CTA affiliates and members a competent hybrid meeting environment.

**Rationale:** In the wake of COVID-19, CTA facilities have not been fully available for members and affiliates to hold meetings, trainings, conferences, etc. Going forward, in light of COVID-19, CTA facilities, particularly its Regional Resource Centers, must be appropriately equipped so that affiliate members and staff can conduct meaningful interactive experiences in a hybrid meeting environment, i.e. an event where some participants are present in person and others participate remotely.

**LTSP Area:** Organizing Culture

**LTSP Explanation:** Our union cannot achieve an organizing culture if members and affiliates cannot hold highly functional hybrid meetings. We are unlikely to return to a time when all members and affiliates can or will personally participate in certain union functions. In fact, rural locals and regional groups dispersed in a large geographic area have experienced an increase in participation in a digital meeting format. As we return to in-person activities, it is vital we maintain the digital participation option for those members and affiliates who are more likely to participate remotely.

[Ever Flores (FPE)/Tiffany Kampman (PRR)]
NBI 1/22-2
CTA should recognize April as Arab American Heritage Month

**Rationale:** CTA is an organization that is inclusive. CTA recognizes many communities, and Arab American month should be included to reflect our members and the communities we serve.

**LTSP Area:** Diversity – Social Justice

**LTSP Explanation:** CTA is an organization that is inclusive. CTA recognizes many communities, and Arab American month should be included to reflect our members and the communities we serve.

[Magret Nunes (REP)/Ingrid Gunnell (PIC)]

THE ABOVE ITEM WAS REFERRED TO THE COMMUNICATIONS COMMITTEE

NBI 1/22-3
CTA will develop procedures to actively include local chapters in organizing charter schools within their LEA. Binding language stating that CTA organizers will consult with and include local chapter Presidents when organizing charter schools, and all effort should be made to organize charter schools as part of existing local units

**Rationale:** CTA has organized charter schools without informing locals or including them in the process. This weakening can weaken local affiliates, create unnecessarily divergent working conditions for members in the same LEA, and situations where mutual support of CTA members within an LEA can be difficult or impossible.

**LTSP Area:** Organizing Culture

**LTSP Explanation:** CTA organizing done in a piecemeal fashion and without local support undermines the unity of our members and can build local resentment for CTA. Charter Schools in competition with public schools should not have separate uncoordinated CTA locals who may be unintentionally working at cross purposes or negotiating in uncoordinated fashion. Organizing charters in coordination with and as part of the local unit will add to our ability to fight for fair working conditions and to meet the needs of all students.

[Charles Jones (PIC)/Elvia Gauzin (NEG)]

THE ABOVE ITEM WAS REFERRED TO THE CTA BOARD OF DIRECTORS
CTA will direct our current Board Charter Workgroup to create and submit to council a report on the direction and progress of their work at the March 2022 State Council meeting.

**Rationale:** Members are confused about CTA’s position on charter schools, what actions are being taken to oppose corporate takeover of public education through charters, and under what conditions (using what resources) we are attempting to organize local charter schools. “Organizing Unrepresented Education Workers” is part of the strategic plan; it seems to get little discussion at council. The strategic plan calls for “…all structures and entities within CTA – the Board of Directors, State Council, Service Center Councils, management and staff – must be aligned to support the implementation of the strategic plan…” State Council cannot do that if we are Ill-Informed.

**LTSP Area:** Organizing Culture

**LTSP Explanation:** CTA’s strategic plan calls for organizing charter schools and other unrepresented education workers (Strategic Focus Areas: Building a Strong Union p. 4).

[Charles Jones (PIC)/Elvia Gauzin (NEG)]

THE ABOVE ITEM WAS REFERRED TO THE CTA BOARD OF DIRECTORS
The Board of Directors should develop recommendation procedures for county supervisors and county-wide public offices, akin to those in existence for county superintendents and county boards of education (CTA Org Handbook, p 442). The procedures should be completed and disseminated in time to implement before the June 2022 primary election.

**Rationale:** The pandemic has demonstrated that county officials have significant impact on our work. Supervisors oversee public health and the social safety net. Assessors have outsized influence over property taxes. Sheriffs and district attorneys play important roles in ending the school-to-prison pipeline. Recently some of these officials have taken courageous stands in support of our members and students, while others have turned their backs. Locals should have an organized, sanctioned way to use their collective voice in coalition to support candidates for county offices. Note: It is NOT the intent of this NBI to extend CTA/ABC funding to these races.

**LTSP Area:** Structure and Governance

**LTSP Explanation:** The NBI seeks to create a structure that will enable CTA locals to make unified candidate recommendations in regional elections that influence areas of public policy that are important to CTA’s efforts to engage the community, build coalitions, advocate on education reform, and pursue equity and social justice.

[Patrick Bernhardt (COM)/Grant Schuster (FPE)]

THE ABOVE ITEM WAS REFERRED TO THE POLITICAL INVOLVEMENT COMMITTEE
We suggest an amendment to the policy on communicable disease to include: In situations where vaccines are created, available and FDA approved, for less than 10 years, employees shall have the option to become vaccinated or follow the current health and safety guidelines as determined by local health organizations.

**Rationale:** The continued safety of students and staff is at the forefront of public education. By allowing individuals the basic human right of educated decision making, guarantees that the California Public Education system will remain a safe and healthy environment for all involved. Working together with local public health agencies, parent committees, bargaining units and district employees, communities will have a chance to build a stronger and more comprehensive partnership in health education and safety.

**LTSP Area:** Advocacy

**LTSP Explanation:** Multiple LTSP Focus Areas requiring rationales for each.

OTHER ITEM(S) FOR IMMEDIATE ACTION:

A. Approve Sponsored Legislation proposals from the Retirement Committee.
   • Proposal A:
     Uses excess funds within CalSTRS’ Supplemental Benefits Maintenance Account (SBMA), a separate purchasing power account, to provide an equitable distribution of these funds by addressing systemic tiers between retirees; creates a one-time permanent adjustment applied to the total current benefit that is being paid to CalSTRS retirees and beneficiaries of retirees who retired prior to 1999, helping CalSTRS retired members most in need of assistance while not compromising the financial integrity of the SBMA and its ability to provide inflation protection long term.

   • Proposal B:
     Exempts retirees from any reimbursement obligation resulting from overpayment of benefits due to erroneous information provided to CalSTRS by the school district or reporting agency; provides adequate notice and due process to all CalSTRS members impacted by CalSTRS audits; clarifies that any changes to CalSTRS’ interpretation of creditable compensation laws must be preceded by prior notice; creates a more transparent and accountable system to ensure school districts and reporting agencies receive timely and accurate information from CalSTRS, and makes other changes to minimize CalSTRS reporting errors and to prevent harm to retirees.

2. State Legislation will be conducting a Processing Legislation virtual training for Committee Chairs, Legislative Subcommittee Chairs, and Committee Consultants on March 8th at 6:00pm.

3. Glossary of legislative terms can be found at the end of the State Legislation Committee report.
LEGISLATIVE TERMS:

Amend:
To alter formally by modification, deletion, or addition.

Appropriation:
A legislative authorization to make expenditures and incur obligations for specific governmental purposes; usually limited as to time when it may be expended. One of the prime responsibilities of the Legislature is this power to appropriate moneys.

Companion Bill:
Two bills identical in wording that are introduced in each house. They will most likely not have the same number. Some companion bill sponsors feel it will increase the chances for the passage of the bill.

Legislative Deadlines:
Deadline set by a legislative body for specified action, such as bill introduction, committee action, or initial passage of bills by either house.

Effective Date:
The date a bill, once passed, becomes law. Unless a different date is specified, bills become law when approved.

Floor:
Reference to the interior of the chamber of either house. Floor action suggests consideration by the Assembly or Senate rather than committee action.

Held in Committee:
The defeat of a measure by the decision of a standing committee not to return it to the full house for further consideration.

Pull:
The act of removing a specific legislative bill from an inclusive list for the purpose of review, discussion, change a position, etc.

Reconsideration:
A motion that, if carried, allows a measure that failed or passed to be heard again in committee or on the Floor. This more commonly occurs when a bill has failed passage on third reading on the floor where the author/presenter will “notice reconsideration” upon the final tally of the votes. However, it does occasionally happen during the committee process as well.

Resolution:
A measure expressing the will, wish, or direction of the Legislature. It does not have the effect of law.
Resolution-Concurrent Resolution:
A resolution which requests action or states the Legislature's position on an issue.

Resolution-Memorial Resolution:
A nonsubstantive resolution used to convey the sympathy and condolences of the Legislature on the passing of a constituent or a dignitary.

Spot Bill:
A spot bill is a proposal not fully developed or containing sufficient information necessary to make a determination to support or suppose.

Sunset Law:
A provision shutting off a program or agency on a specific date, requiring reexamination and a fresh authorization prior to that date to continue.

Urgency:
An urgency measure goes into effect immediately once passed by both houses and signed by the Governor. This type of measure requires a 2/3 vote.

Veto:
A power vested in the governor to prevent the enactment of measures passed by the Legislature by returning them, with objections, to the Legislature.

*CAPITOL SPEAK: For those unfamiliar to the legislative process, phrases used can appear to be from a different language. The inclusion of Capitol Speak descriptions below are provided to assist you in understanding the legislative arena.

Across the desk:
When a bill or amendment is officially introduced. Common to hear staffers or third house members ask: “Is that across the desk yet?”

Blue pencil:
The governor’s line-item veto. Dreaded by legislators hoping to protect spending priorities.

District bill:
Legislation addressing a specific local or district issue of the legislator carrying the bill. If approved, legislation applicable in the district only.

Dog House:
The Legislature’s smallest office, located on the sixth floor and generally assigned to an Assembly member who has angered leadership.

Free Ride:
To run for a different office when your current elected position is not up for re-election. If you lose, you retain your current elected position.

Gut and Amend:
To hollow out an existing bill and fill it with new language. A good way to sneak in new (or old, previously defeated) bills late in a session.

**Hijack:**
To insert an existing legislative measure into a new bill. For example, transplanting a legislative measure authored by a member of one political party into a different legislative measure by a member of a different political party and claiming ownership.

**Interim Study:**
A common tactic to kill bills without the messiness of a vote. Rather than vote against a legislative measure, legislature decide to study it more – after the session ends.

**“I wasn’t going to speak today”**:  
The most common sentence lawmakers say before they begin to speak.

**Job killer:**
Description of legislative measures identified by the California Chamber of Commerce, Republicans and moderate Democrats as adversely impacting the creation, availability, and duration of employment opportunities in CA. (Typically affixed to priorities of organized labor, environmentalists, and other Democratic allies.

**Juice Committee:**
Committee that oversees wealthy or politically potent industries. Membership guarantees a steady revenue of campaign contributions.

**Jungle primary:**
Derisive nickname for the top-two primaries, in which top two vote getters advance to general election regardless of political party.

**Lay off:**
To avoid voting on a controversial bill. Effectively the same as a no vote, for purposes of passing a bill but can look better politically. Synonym for “take a walk.” A practice more associated with political moderates of either political party.

**May revision (or the ungrammatical “May revise”)**:  
Common term for governor’s May budget proposal. Unlike the January budget proposal, it reflects new tax revenue (April 15 tax submission deadline) and therefore offers the starting point for serious budget talks.

**Mod:**
A moderate Democrat. Friendly to business interests and irritant to Democratic leadership.

**On call:**
When the voting roll remains open after an initial count falls short of the needed number for passage, the bill is on call.
**Per Diem session:**
Typically held on Fridays before a holiday weekend, these often-brief floor sessions fulfill the requirement to meet every three days which allows legislators to keep their tax-free $168-a-day “per diem” stipend.

**Poison pill:**
An amendment added to a bill so it will become indefensible and die.

**Robust:**
The only type of debate that occurs in the Legislature.

**Roll (verb):**
If you get a bill out of committee whose chair opposes it, you have “rolled” the chair. A good way to lose your committee membership.

**Speakerize:**
When the Assembly speaker intervenes on a controversial bill either to kill it or to ensure it advances.

**Sponsor:**
An outside entity that writes a bill and then gets a legislator to carry the bill. Not always “candid” about its role.

**Spot bill:**
A placeholder bill that remains devoid of detail until a legislator decides content.

**Stakeholder:**
Anyone who wants something. Always seem to be meeting somewhere about something. Generally, synonym for “interest group.”

**Swing Space:**
The new state office building where legislative and executive offices have been relocated to during the duration of the State Capitol Annex Project.

**Suspense File:**
Holding place for legislation that will cost more than a specified amount of money. Many bills never make if off the Appropriations Suspense file. Another useful way to let a bill quietly die.

**Third house:**
Sacramento’s lobbying corps, so named because some see them – and the special interests they’re paid to represent – as a coequal third branch of the Legislature.

**Trailer bill:**
Legislation that implements a specific part of the budget after the budget itself has passed. A useful way to change policy via the budget process.

**Two-year bill:**
A bill that stalls in the first year of the legislative session and must wait another year.

**Urgency clause:**
A designation that makes a bill take effect immediately after it is signed instead of the following Jan. 1. Requires a two-thirds vote.

**Work the floor:**
When a legislator moves from desk to desk in the Assembly or Senate to talk to colleagues to garner support.

*Special acknowledgment to Sacramento Bee reporters Jeremy White and Alexei Koseff for their contributions.
